General Index to Talks on the Science of the Bible

The Foundational Book Company announce that an INDEX to John W. Doorly's Talks on the Science of the Bible is now in course of preparation. The whole work is compiled by Irene Oppenheim and R. Tobias, and will be issued in a number of booklets each referring to one or more of the nine volumes (99 reports) of this series. The first booklet comprising an index to Volume I (Reports 1 to 10 inclusive) will be available about the middle of July, price 5/-, postage 2d. (Canada and U.S.A. $1.00).

This comprehensive subject index to the first ten reports is divided into four parts:-

i. General Index, with approximately 140 main subject headings and 380 sub-headings.
ii. Index to tones blending in the days of creation listed in their various aspects.
iii. Index to quotations from the Bible.
iv. Index to quotations from the writings of Mary Baker Eddy.

The Index is suitable for use with either of the two methods of page numbering that have been used. That is to say for those whose reports 1 to 10 are page numbered consecutively from 1 to 314, or for those whose ten reports are each individually numbered from page 1 onwards, and enables all that has been written on any particular subject to be found with ease.

Study groups in which Christian Science is progressively explained are held regularly on:-

Tuesdays and Wednesdays by Mrs. O. M. Breymann
Thursdays and Fridays by William H. Breymann

in their office, Gansemarkt 35.

Hamburg, Germany (cont.)

During the Spring and Summer of this year, courses of a week's duration will be held by William H. Breymann in his private residence in Wentorf, near Hamburg, on the following subjects:-

I. Introductory Course in Christian Science with special emphasis on the Days of Creation and their correlation with the synonymous terms for God. — To be held in May

II. "Jesus' Second Appearing" — to be held in June

III. "Christ & Christmas" - an illustrated poem by Mary Baker Eddy. The pictures and the poem will be metaphysically explained, laying special emphasis on the healing work. (This course is designed only for those who have attended a former course on "Jesus' Second Appearing" by William Breymann or who have studied his booklet on this subject.) — To be held in July

Exact dates for these three courses will be announced later. All groups and courses are held in the German language.

For further particulars apply to Mrs. or Mr. Breymann, Hamburg-Reinbek. "Haus Gernda."

A Study of the Rudiments of Christian Science

A book for the student in the form of a course of study has been compiled by Gordon and Estelle Brown. This book unfolds in an orderly way the three basic conceptions of the divine system of Christian Science, - the numerals of infinity, the divine infinite calculus, and the matrix, as constituting the threefold essential nature of the system.

The object of the book is to help to show the individual student how he may discover and develop an understanding of the system for himself through his study of the two textbooks, the Bible and "Science and Health."

Price: 3 gns. Copies, or further particulars, may be obtained from Gordon & Estelle Brown, 36 Greville Hall, London.

Details of these talks will be announced later.

CHRISTIAN SCIENCE

Summer School in London, 1953

Miss Irene Oppenheim will hold a Summer School in London from July 13th to 18th inclusive.

Sessions, held in the Kent Room, Caxton Hall, Caxton Street, Westminster, S.W.1, will be from 6.30 to 9 p.m. Monday to Friday; Saturday, 3 to 5 p.m. and 7 to 9 p.m.

Fee for attendance: Three and a half guineas.

SUBJECT: GENESIS - Chapter XV in "Science and Health"

This chapter, which Mrs. Eddy describes as containing "the deep divinity of the Bible" (S.& H. 546:21-22), will be considered in its relation to the Matrix - Science reflecting Christianity. The divine system of ideas, operating in the design of LOVE and made manifest as the metaphysics of MIND, is interpreted from the standpoint of TRUTH and LOVE in absolute Christian Science.

Mrs. Eddy's exegesis of the true record of creation is a subjective and wholly spiritual presentation of what she terms the "narrative of being that is without beginning or end" (S&H.521:4-5), and the continued account an exposition of the absolute unreality of the mortal concept. To quote her own words, "The Science of the first record proves the falsity of the second" (S&H. 522:3-4).

Applications should be made to Miss Irene Oppenheim, 46 Shrewsbury House, Cheyne Walk, London, S.W.3.

Weekly Meetings on the Bible

Weekly Meetings on the Bible will be held every Wednesday by Mrs. Peggy Brook, commencing on Wednesday, January 21st and continuing through until Wednesday, March 25th, 1953.

Those who are somewhat familiar with the Book of Hebrews will realise how its subjective presentation of the Bible story seems to impel thought to return to the fundamentals in a new way, - in a more natural way perhaps, - realising their ever-presence as the actual living values of life. By reason of this, from this more subjective standpoint, Mrs. Brook plans to start from the beginning of the Bible and to go through it slowly week by week in as simple a way as possible, letting its spiritual sense bring out the scientific sense. (See S. & H. 272:9-12)

These weekly Meetings will be held at St. Ermin's Hotel, Caxton Street, Westminster, London, S.W.1. from 6.45 - 8.45 p.m.

The fee for attendance will be £2.10. for the ten Meetings or 5/- each Meeting. (Naturally this fee is adjustable where necessary).

Applications to attend should be made to Mrs. Brook at 41 Pelham Court, Fulham Road, London, S.W.3. (Tel: KNI.1053)

Worthing, Sussex

Dr. Max Kappeler's Talks on the Textbook (last eight chapters)

Dr. Max Kappeler of Zurich, Switzerland, will be taking the last eight chapters of the Christian Science textbook in London during the month of August this year. The Talks will be held in the Council Chamber of the Baptist Church House, 4 Southampton Row, W.C.1, from Monday, August 17th - Saturday, August 22nd. The sessions will take place each day from 10.00 am - 12.30 pm, and 2.30 - 4.00 pm.

As these talks are a continuation of a series, it is asked that only those who have attended the talks on the first eight chapters given last August or at Easter this year, should apply.

Applications to attend and all correspondence should be addressed to the Secretary, Miss E. June Gillett, 41 Pelham Court, Fulham Road, London, S.W.3.

The fee for attendance will be £6. 6. Od and it is asked that this be paid during the session only and not sent in with the applications. Anyone who wishes to attend these talks but feels they are unable to pay the full fee, should write to the Secretary.

Note

As announced in the previous "News Items", Dr. Kappeler is repeating his first series of talks on the first eight chapters of the Christian Science textbook in London at Easter. These talks will be held at the Bonnington Hotel, Southampton Row, W.C.1, from Friday, April 3rd - Wednesday, April 8th. The sessions will take place each day from 10.00 am - 12.30 pm, and 2.30 - 4.00 pm.

The fee for attendance at these talks is £5. 5. Od. to be paid only during the session. Applications should be sent to the Secretary, Miss E. June Gillett, address as above.

John Morgan will be holding another Summer School at Colwyn Bay this year, from Sunday, August 30th to Saturday, September 5th inclusive.

The subject will be the Gospel of Luke, presenting Christianity as the activity of Science.

Mary Baker Eddy states, "Christianity will never be based on a divine Principle and so found to be unerring, until its absolute Science is reached." (S. & H. 483:32-2.) The aim of the School will be to see that Christianity is not so much the individual demonstrating the Christ, but rather is it the universal functioning of scientific fact. In this way, it will be realized that there is only one man, and Luke will be considered in this light.

The fee for attendance will be three guineas.

Further details can be obtained from John Morgan at 32 The Ropewalk, Nottingham, to whom all applications should be made.

"Adventure in Ideas"

This magazine for children (edited by John Morgan) is currently running a series of articles on the Old Testament stories; another series on the life of Jesus (written by Margaret Jewson); and a Study Section on the Sermon on the Mount. Each issue also contains stories especially written for young readers.

No. 9 of this periodical is now available. Each issue costs 1/-, or 5/- for a year's subscription (6 issues).

Compendium for the Study of Christian Science, Number 9, TRUTH

The latest Compendium, in the series written by E. Butikofer, M. Rudin, M. Kappeler and B. Schurter, translated into English, will be ready in February. This will be No. 9, on Truth, price 5/- (postage 2d.)

The others in the series, each priced at 5/-, are also available and cover: No. 1, Introduction, No. 2, The Seven Days of Creation, No. 3, The Commandments, the Beatitudes, and the Lord's Prayer, No. 4, Mind, No. 5, Spirit, No. 6, Soul, No. 7, Principle and No. 8, Life.

No. 10, on Love, should be available in April or May.

The whole series is also available in German.

Book Service

It may be a service to you to know that any book, on any subject (including Dictionaries) can be obtained from The Foundational Book Co. Ltd.

They are also able to supply a certain number of secondhand copies of Mrs. Eddy's writings and books on the Bible.

The binding of books or magazines, is also undertaken.

NEWS ITEMS is issued every other month free of charge by The Foundational Book Co. Ltd., 84 Queensway, London, W.2, to whom the name and address of anyone wishing to receive this News sheet regularly should be sent.

Notices for inclusion in News Items should also be sent to The Foundational Book Co. Ltd. A charge of 15/- is made for each notice, with a maximum of 20 lines. Copy for any issue should be received not later than the 20th of the month before.

Guildford, Surrey

A talk will be given by Mr. John Morgan in the Centenary Hall, Chapel Street, Guildford, on Sunday, April 12th, at 6.15 p.m.

The subject will be: The Human and Divine Coincidence.

Those attending are invited to contribute towards expenses.

Further particulars of this and future talks may be had on application to the Misses Polhill, Morningside, Guildown, Guildford, Surrey.

Courses of Study

Mr. D. H. Baker will be holding two one-week courses of study in Bristol during the summer.

1. A study of the chapter on Prayer in the Christian Science Textbook - June 27th to July 5th.

2. A study of the Gospel of Mark - August 1st to 9th.

The courses will begin on the Saturday evening and end on the Sunday morning a week later. There will be two sessions each day, 10.30 to 12 noon and 5 - 6.30 p.m.; students will be asked to prepare work for each session.

Further particulars of the nature of the study and of the types of accommodation available in Bristol may be obtained from Mr. D.H. Baker, Westfields, Sheepwood Road, Brentry, Bristol.

The fee for a course will be £3. As these courses are essentially designed for study and are not series of lectures, not more than 8 students will be accepted for either course.

Individual Tuition

Alice Barnett is prepared to help individual students, or a few people together who are at a similar point in their study to consolidate their understanding of the pure Science of Christian Science and thereby reach a higher measure of demonstration.

As the purpose of the work is to meet the need of the individual student, which cannot always be done in large classes, a suitable line of study will be indicated which can be done at home, and it is thought that some people may need only an occasional meeting, while others may require a longer period of tuition.

Newcomers to the subject are very welcome, and a beginners' course is available. Visitors to London during the Summer may like to follow a more concentrated course of study.

Will those interested please communicate with Mrs. Barnett, 166 Chiswick Village, London, W.4. (Tel: CHI.5911).

Hamburg, Germany

Mr. William Breymann will be holding two courses this year, as follows:

Course A on the fundamentals of Christian Science
from May 14th to May 20th

Course B on "Christ and Christmas" by Mary Baker Eddy
from August 3rd to August 8th

Groups for the study of the Bible are regularly held by both Mrs. Olga-Maria Breymann and by Mr. William Breymann.

Courses and groups are given in the German language.

Further particulars of the above may be had from Mr. Breymann at Heckenweg 3, Reinbek bei Hamburg, Germany.

NEW PUBLICATIONS

Index to the Verbatim Reports of the Oxford Summer School held by John W. Doorly in 1949

An Index to the two volumes of the Verbatim Reports of the Talks on the Four Gospels given by John W. Doorly at his Oxford Summer School, 1949, is now available.

It will be remembered that these Talks on the Gospels were given from the subjective standpoint of Life, Truth, and Love in absolute Christian Science.

This Index, which has been compiled by Mr. R. Tobias, is most comprehensive and contains 63 pages of references.

Price: 10/- ($2.00 in U.S.A.)

In addition to the above, readers are reminded that Indexes have been published to the following Verbatim Reports of Talks on the Science of the Bible given by John W. Doorly: -

Volume I. Reports Nos. 1-10 (True and False Records of Creation) Price: 5/-
Volume 2. Reports Nos.11-22 (Noah, Abraham, Isaac, Jacob, Joseph) Price: 7/6d.

Further Indexes to the remaining volumes are in preparation.

The purpose of these Indexes is not only to help the student to find certain statements in these books, but also to enable him to pursue a line of study of specific subjects.

Report of Mr. J. L. Sinton's 1952 Summer School at Harrogate

The Verbatim Report of Mr. J. L. Sinton's Summer School given in Harrogate in 1952 is expected to be ready in early May.

At this Summer School Mr. Sinton took as his subject the Glossary of "Science and Health" and showed how this brings to light the spiritual plan and orderly development of the Scriptures.

This Report is printed and bound in cloth.

The price is £2. 2. 0 (including postage and packing) and orders may now be placed with The Foundational Book Co.Ltd., 84 Queensway, London, W.2.

NEWS ITEMS is issued every other month free of charge by The Foundational Book Co. Ltd., 84 Queensway, London, W.2, to whom the name and address of anyone wishing to receive this News sheet regularly should be sent.

Dr. Max Kappeler's Talks on the Textbook (last eight chapters)

Dr. Max Kappeler of Zurich, Switzerland, will be taking the last eight chapters of the Christian Science textbook in London during the month of August this year. The Talks will be held in the Council Chamber of the Baptist Church House, 4 Southampton Row, W.C.1, from Monday, August 17th - Saturday, August 22nd. The sessions will take place each day from 10.00 am - 12.30 pm, and 2.30 - 4.00 pm.

As these talks are a continuation of a series, it is asked that only those who have attended the talks on the first eight chapters given last August or at Easter this year, should apply.

Applications to attend and all correspondence should be addressed to the Secretary, Miss E. June Gillett, 41 Pelham Court, Fulham Road, London, S.W.3.

The fee for attendance will be £6. 6. Od. and it is asked that this be paid during the session only and not sent in with the applications. Anyone who wishes to attend these talks but feels they are unable to pay the full fee, should write to the Secretary.

Note Dr. Kappeler will not be repeating this last series of talks on the second half of "Science & Health".

Summer School in London, 1953

Miss Irene Oppenheim will hold a Summer School in London from August 24th to 29th inclusive.

Sessions, held in the Kent Room, Caxton Hall, Caxton Street, Westminster, S.W.1, will be from 6.30 to 9 p.m. Monday to Friday; Saturday, 3 to 5 p.m. and 7 to 9 p.m.

Fee for attendance: Three and a half guineas.

SUBJECT: GENESIS - Chapter XV in "Science & Health"

This chapter, which Mrs. Eddy describes as containing "the deep divinity of the Bible" (S&H.546:21-22), will be considered in its relation to the Matrix - Science reflecting Christianity. The divine system of ideas, operating in the design of LOVE and made manifest as the metaphysics of MIND, is interpreted from the standpoint of TRUTH and LOVE in absolute Christian Science.

Mrs. Eddy's exegesis of the true record of creation is a subjective and wholly spiritual presentation of what she terms the "narrative of being that is without beginning or end" (S&H. 521:4-5), and the continued account an exposition of the absolute unreality of the mortal concept. To quote her own words, "The Science of the first record proves the falsity of the second" (S&H. 522:3-4).

It would be much appreciated if those who wish to attend would now send in their applications in writing to Miss Irene Oppenheim, at 46 Shrewsbury House, Cheyne Walk, London, S.W.3. (Tel: FLAxman 2687)

Course of Study, Bristol

Mr. D. H. Baker will be holding a course of study on the Gospel of Mark in Bristol from 1st to 9th August.

The course will begin on Saturday evening (1st August) and will end Sunday morning (9th August). There will be two sessions each day, 10.30 - 12 noon and 5 - 6.30 p.m.

The purpose of this course is to enable students to give a week to the quiet and undisturbed consideration of the translation order of the Christ as portrayed in Mark's Gospel. The classes will take the form of collective study, not of a series of lectures, and students will be asked to prepare the work for each session.

The fee will be £3. Further details about the course and information about accommodation in Bristol will be given on application to Mr. D. H. Baker, Westfields, Sheepwood Road, Brentry, Bristol.

Talks in Cheshire/Lancashire Border Districts

Charles H. Parker has removed from Green Mount, Bowdon, to a more convenient address, and letters should be addressed to him at Dane Chambers, Dane Street, Northwich, Cheshire.

During the coming months he will be giving talks and readings on "The Science of the Bible," and to further "embellish, elaborate, or treat in full detail" (Pref.X:14-15) "Science and Health," and students interested in these subjects are invited to communicate with him.

Northwich is centrally situated and affords easy access to all the following places, in any or all of which Mr. Parker is prepared to consider the formation of groups (4 to 10 persons) for readings and talks:

Warrington, Widnes, Runcorn, Liverpool (suburbs), Birkenhead and the Wirral, Chester, Crewe, Northwich, and Altrincham.

Meetings can be arranged at any time during the day and early evening, and a session of ten talks before Christmas and ten in the New Year is proposed and, as far as the subjects dealt with permit, each talk will be complete in itself.

NEW PUBLICATIONS

The Epistles of John - Irene Oppenheim 35/-

Miss Oppenheim's new publication entitled "Talks on the Epistles of John" - a Verbatim Report of her 1952 Summer School - is now available.

This book contains a detailed metaphysical interpretation of the First, Second, and Third Epistles of John. These inspired writings indicate the divine system of Science in its various aspects, and illustrate, in a wonderful way, the essential nature of divine Principle, Life, Truth, and Love.

The Bible text and passages given from Mrs. Eddy's writings are set out in full. The book consisting of 257 pages, is printed and bound in full cloth. Price 35/- (post free).

Harrogate Summer School 1952 Report - John Lawrence Sinton 2 gns.

A Verbatim Report of classes on the Glossary of "Science and Health with Key to the Scriptures" by Mary Baker Eddy, given at Harrogate in 1952, is now available.

The author, through lucid references to the Bible, shows how Mrs. Eddy arrived at her definitions of the terms in the Glossary. He does not study the terms alphabetically, but in their unfolding order of spiritual development, - the spiritual development of each one of us.

This approach to the Glossary reveals that the terms and their definitions contain within themselves all the constituents of the divine system of metaphysics, which Mrs. Eddy named "Christian Science."

The book also deals with such vital subjects as "The Nature of Ideas," "The Nature of Reflection," "Analysis of Electricity," "Handling Fear," "Controlling the Unconscious," etc., to which the author has given years of consecrated thought and study from a spiritual standpoint.

CHRISTIAN GOVERNMENT - its Scientific Evolution

Readers will be interested to know that Dr. Max Kappeler has re-published his book "Christian Government" in the United States of America and copies are now available over here.

The first edition of this book was published in England in 1946. It presents a basic, inspired, and unbiased interpretation of the Christian Science Manual, resolving what many have regarded as inconsistencies between the teachings of Christian Science and the Church Manual. As well as being of interest to students of Christian Science, this book in its discussion of the fundamentals of Christian government has its appeal to all who love freedom and who are seeking a progressive sense of government.

The American edition of "Christian Government" is printed in clear type and bound in blue cloth boards. It can be obtained from The Foundational Book Co.Ltd. Price: 15/- (postage 4d.)

NEW PUBLICATION

An index to the Verbatim Report of the Talks given by John W. Doorly on the chapter "Christian Science Practice" from "Science and Health with Key to the Scriptures" by Mary Baker Eddy has been compiled by R. Tobias and is now obtainable, price 10/-.

Several thousand references have been indexed, including all statements by Mr. Doorly on the practice of Christian Science, on healing, treatment, etc., and also all cases of healing mentioned during the talks.

This index should be a valuable aid in the study of the Verbatim Report and of great help in the practice and demonstration of Christian Science.

Indexes are also available to the following Verbatim Reports of talks on the Science of the Bible given by John W. Doorly:-

Talks 1-10 on Genesis 1:1 - 4:16, The True and False Records of Creation (Volume I)	5/-
Talks 11-22 on Noah, Abraham, Isaac, Jacob, Joseph (Volume 2)	7/6d.
Talks given at the Oxford Summer School 1949 on Matthew, Mark, Luke, and John	10/-

The index to the Verbatim Reports of Talks 23-34 on Exodus, Leviticus, Numbers, Deuteronomy, and Moses (Volume 3) should be available in September, price 7/6d.

ADVENTURE IN IDEAS

"Adventure in Ideas," No. 17, is now ready, price 1/-.

"Adventure in Ideas" is published every other month, at the same time as "Ideas of To-day." In every issue there is an article in an explanatory series on the Old Testament by John Morgan; a story from the Gospels simply re-told by Margaret J. Jewson; and an instalment of a family serial by Rosalie Maas, showing how children can make practical use of their understanding of God. There are also one or two other stories in each number - in this issue, for instance, there is one (based on experience) of how a boy was able to buy the watch he very much wanted and another, a modern fairy story, of a princess who was turned into a frog and of how she became a princess again.

"Adventure in Ideas" is a children's periodical that is unique. It sets out to familiarize children with the Bible, not as a mere historical record, but as a living story, - a story of manifold adventures in ideas. It also encourages children to apply in their own lives what they have learnt of the nature of God and man. Some grown-ups too are finding "Adventure in Ideas" helpful as an orderly introduction to the Bible.

Back numbers are available.

If you know of anyone who would be interested to see a copy of "Adventure in Ideas," please give us their names and addresses and we will gladly send them a specimen copy.

NEWS ITEMS is issued every other month free of charge by The Foundational Book Co. Ltd., 84 Queensway, London, W.2, to whom the name and address of anyone wishing to receive this News sheet regularly should be sent.

MR. J. L. SINTON'S DECEMBER CLASS IN LONDON

Mr. Sinton will hold a four-day class in London between Wednesday, December 29th, 1954 and Saturday, January 1st, 1955. The class will be held, as before, in the Baptist Church House, Southampton Row, London, W.C.1.

The purpose of the class is to continue the work begun in June last, and will consist of advancing studies of the first four chapters of "Science and Health with Key to the Scriptures," by Mary Baker Eddy, to lead further into maturing concepts of Christian Science practice.

Whereas the studies of last June were preparatory, and these four chapters were studied in their Genesis order of unfoldment, this further reading in December will consider these same four chapters from the standpoint of divine Principle and its fourfold operation as a matrix.

Particulars may be obtained from Mr. J.L. Sinton, 7 Shrewsbury House, Cheyne Walk, London, S.W.3, (Tel: FLAxman 2066).

SATURDAY TALK IN LONDON

Violet Smith will give a talk on the alphabet, showing how these familiar symbols, when spiritually interpreted, form a perfect introduction to the categories of metaphysics.

The Talk will be given at the Caxton Hall, Caxton Street, Westminster, London, on Saturday, 11th December, 1954, from 2.30 - 4.30 and 5.30 - 7.30 p.m.

Further particulars on application to Lady Smith, 40 Shooter's Hill Road, London, S.E.3 (Tel: GREenwich 4699).

REPRINT OF "SCIENCE OF MAN"

The Report of six lectures by John L. Morgan, entitled "The Science of Man: the issue between spirit and matter in science, theology and medicine" has been reprinted and is available again from him at 32 The Ropewalk, Nottingham, price 10/-, postage 6d.

"IDEAS OF TO-DAY" CHRISTMAS OFFER

Have you thought of giving a subscription to "Ideas of To-day" as a Christmas present to your friends at home or abroad? We offer the special reduced price of 10/- for a year, or 5/- for 6 months, for a subscription to be taken out for anyone who is not already a regular subscriber. This offer is open until December 31st of this year.

"Ideas of To-day" is a magazine whose purpose is unique; it is to show that ideas are fundamental in every activity, that they come from an infinite source, that they are available to everyone, and that they are based on a perfect Principle which is unfailingly operative.

A Talk in Brighton

John L. Morgan of Nottingham will be giving a two-day Talk at The Institute, Queen Square, Brighton (near Clock Tower), on Friday and Saturday, January 14th and 15th, 1955, from 10.30 to 12.45 and from 2.30 to 4.15 each day.

His subject will be, "The Sermon on the Mount as an Illustration of the Living Calculus."

Further particulars may be obtained from Miss C.M.Trotman, 4 Tivoli Crescent, Brighton, 5 (Tel. Brighton 58093).

Talks and Discussions on the Pure Science of Christian Science contained in the Christian Science textbook

Alice Barnett will give a series of 10 talks on the living story in the Christian Science textbook ("Science and Health with Key to the Scriptures" by Mary Baker Eddy) on Tuesdays, January 25th to March 29th, 1955, inclusive, from 6.45 to 8.15 p.m. at Leighton House, 12 Holland Park Road, London, W.14, (1 minute from Kensington High Street, Earls Court Road bus stop).

The textbook will be considered, first, in a broad outline, showing its place alongside the Bible, and the scientific build-up from chapter to chapter; secondly, the chapters will be examined in more detail, showing that the textbook presents the basis and structure of being.

Those attending will be encouraged to ask questions and bring forward relevant points for discussion.

For further information please communicate with Mrs. Barnett, 166 Chiswick Village, London, W.4. Tel: CHIswick 5911.

Talk at Guildford, Surrey

A Talk will be given by Mr. Gordon Brown in the Centenary Hall, Chapel Street, Guildford, on Sunday, February 6th, at 6 o'clock p.m. The Talk will be a continuation of his two previous talks.

Further particulars of this Talk, and of Study Groups that are held weekly, may be had from the Misses Polhill, Morningside, Guildown, Guildford.

NEW PUBLICATIONS AVAILABLE

INDEX TO VOLUME 3 of Talks on the Science of the Bible (Verbatim Reports Nos. 23-34 on Exodus, Leviticus, Numbers, Deuteronomy) by John W. Doorly. This useful booklet for students has been compiled by Irene Oppenheim and R. Tobias and is now available at 7/6d. ($1.50 in U.S.A. and Canada)

HOW DIVINE LOVE MEETS THE HUMAN NEED, (Second Edition), by Clifford and Daisy Stamp 30/- (postage and packing 8d.) ($6.00 in U.S.A. and Canada)

A book that inspires, encourages, and comforts. Its subject is the nature of God as Love and its essentially practical operation in the divine infinite calculus. It gives many examples which show clearly the power of divine Love to meet every human need, and also illustrates through selected passages and incidents from the four Gospels how Jesus lived the Science of Love.

THE STRUCTURE OF THE CHRISTIAN SCIENCE TEXTBOOK - OUR WAY OF LIFE by Max Kappeler 25/- (postage and packing 1/-) ($5.50 in U.S.A. and Canada)

This work presents the essence of the layout of "Science and Health with Key to the Scriptures" by Mary Baker Eddy and shows how an understanding of the ordered unfoldment of the chapters opens to the student the scientific way of Life. The book is based on a verbatim report of talks given in Sheffield at Christmas 1953, but which has since been elaborated.

"IDEAS OF TO-DAY" CHRISTMAS OFFER This special offer of a reduced price for a subscription to "Ideas of To-day" to be taken out for anyone who is not already a regular subscriber is still open, but only until December 31st this year. The reduced prices are 10/- for a year's subscription (6 issues) or 5/- for 6 months.

Weekly Talks on Exodus

The book of Exodus will form the substance of weekly talks to be given by Mrs. Peggy Brook during the months of May and June. Moses' deliverance of the children of Israel from Egyptian bondage will be considered in the light of ever-operative ideas. The Book of Exodus shows step by step how the ever-present Christ, holding intact all true identity, operates to-day to free man from the bondage of sense.

These weekly meetings will be held every Tuesday from 6.45 to 8.45 p.m., commencing on Tuesday, May 3 until Tuesday, June 21st. They will be given at St. Ermin's Hotel, Caxton Street, Westminster, London, S.W.1.

Fee for attendance will be £2 for the eight meetings or 5/- each meeting (naturally this fee is adjustable where necessary).

Applications to attend should be made to Mrs. Brook at 41 Pelham Court, Fulham Road, London, S.W.3. Tel: KNIghtsbridge 1053

Felixstowe Summer School, 1955

John L. Morgan will hold a Summer School this year at Felixstowe, Suffolk, from Monday, August 15th to Saturday, August 20th, inclusive.

Sessions, to be held in the Hall of the County Grammar School, Garrison Lane, Felixstowe, will be from 9.45 a.m. to 12.45 p.m. only, each day.

The subject will be THE GOSPEL OF MARK, presenting the Christ as that spiritual impulsion which resolves the apparent dualism in humanity, and brings out the fact that man's only nature is divinity.

Fee for attendance - 4 guineas. Adjustment will gladly be made where needed.

An excellent illustrated Official Guide (price 6d.), giving full details of hotel, boarding houses, train services, etc., and including a street plan, is obtainable from The Secretary, Information Bureau, Felixstowe. It is recommended that students make early arrangements for their accommodation.

Application to attend should be made to The Secretary, Summer School, 32 The Ropewalk, Nottingham.

A Magazine for Children and Adults

We have found that many grown-ups appreciate the value of ADVENTURE IN IDEAS, a periodical designed for children. It offers a simple and practical approach to Science which many adult readers find helpful and stimulating.

In each issue there are articles in series concerned with the Old Testament and with the Gospels, so that an orderly and systematic understanding of the spiritual truths of the Bible is gradually built up.

Then there is a family serial, showing in a lively way how to apply these spiritual truths to daily life, and a new space-ship serial, pointing to some of the infinite possibilities of these spiritual facts. Also there is usually a story for younger children, bringing out the natural appeal of spiritual truth.

May we send you a specimen copy?

A year's subscription may start with any issue, 6/- for a year (6 issues) or 1/- a copy. Back numbers are also available.

Courses on Christian Science in Switzerland, Summer 1955

1. Refresher Course on the Seven Synonymous Terms for God.

Preceding the series of talks to be given by Dr. Max Kappeler on the structure of the Christian Science Textbook, Miss Morel Hauser will be holding a refresher course in English on the seven synonymous terms for God. The aim of this course will be to refresh the pupil's thought with the seven synonymous terms for God, viewing each one in its aspect of the Word, Christ, Christianity, and Science, and is also intended to prepare the student for the attendance of the Textbook talks the following week.

The course will be held at the Metaphysical School, Limmatquai 116, Zurich, from Sunday, July 24th to Saturday, July 30th, 1955, each morning from 9.30 - 11.00. There will be no fixed fee. It will be left to the student to contribute freely.

2. Talks on the Structure of the Christian Science Textbook

At the request of some students abroad, Dr. Max Kappeler will be giving a series of informal talks on the structure of the Christian Science Textbook. The talks will be in English.

The purpose of these talks is to outline the structure of the textbook as a whole, to indicate how this subject should be approached, how it can be investigated and how everyone can apply it in their daily lives.

Those who attend should be familiar with Dr. Kappeler's new book, "The Structure of the Christian Science Textbook - Our Way of Life." These talks will not attempt to give a more detailed structure of the Textbook than that already presented in this new book, but rather is their purpose to inspire the student with the warmth, comfort, and practicability of the subject and the vast picture which it opens up.

These talks will be held in Zurich from Monday, August 1st to Friday, August 5th, inclusive. They will take place in the mornings and late evenings for a period of an hour and a half each.

No fixed fee will be asked, but each student will be free to contribute towards the financing of "The Structure of the Christian Science Textbook" and its circulation.

Applications

Applications to attend either one or both of the above-mentioned courses should be sent to Dr. Max Kappeler, Sihlstrasse 3, Zurich 1, Switzerland, who will also be glad to help students to find accommodation in Zurich if desired.

NEWS ITEMS is issued every other month free of charge by The Foundational Book Co. Ltd., 84 Queensway, London, W.2, to whom the name and address of anyone wishing to receive this News Sheet regularly should be sent.

Notices for inclusion in News Items should also be sent to The Foundational Book Co., Ltd. A charge of 15/- is made for each notice, with a maximum of 20 lines.

Talk in Worthing, Sussex

Mrs. Muriel Nelson will give a talk on the first chapter "Prayer" in "Science and Health with Key to the Scriptures" by Mary Baker Eddy, for one day during the first week in April, in Worthing.

For further particulars please write to Mrs. Catharine Clarke, 64 Sackville Road, Worthing, Sussex. Tel: Worthing 8845.

May Class in London

Mr. J. L. Sinton will hold a four-day Class in London from Wednesday, May 11th to Saturday, May 14th, 1955. The Class will be held as before in the Baptist Church House, Southampton Row, W.C.1.

The purpose of the Class is to continue the investigation of the sevenfold and fourfold nature of the text of "Science and Health with Key to the Scriptures" by Mary Baker Eddy in order that these advancing studies may lead into maturing concepts of Christian Science practice, and an enlarging consciousness of spiritual harmony as the Kingdom of Heaven within.

The work of this forthcoming class will commence with Chapter Five of "Science and Health," and a review of each chapter, in its Genesis order, will be followed by a more detailed examination of the chapter as a matrix. The work will be carried forward as far as scheduled time allows.

Further particulars may be obtained from Mr. Sinton at the following address: 7 Shrewsbury House, Cheyne Walk, London, S.W.3. Tel: FLAxman 2066.

Talks at Rockport, Massachusetts, U.S.A.

A week's Bible talks are planned to be held in Rockport, Mass., from June 12 through 19.

The topic will be The Christ Impulsion Behind the Word and will deal with the following portions of Scripture:-

The seven days of creation.
The Adam story.
The three divisions within the Jacob story with particular emphasis on the modus operandi of his character transformation.
Moses' seven ascents into the Mount with its transforming effect on the Hebrew people.
Jesus' sermon on the Mount
The appearance of "the postulate of error" following each of these episodes will be shown.

Those desiring further information may write to:-

John W. Doorly's Verbatim Reports of Talks on the Bible

Being constantly impressed with the testimony of those who have consistently studied John W. Doorly's Verbatim Reports of his Talks on the Science of the Bible, we are taking this opportunity of drawing them specifically to the attention of our News Items readers.

Many have said how these Reports have inspired, enriched, and stabilized their thinking along spiritual lines: how they have found them of the greatest help in their daily living; and how they have given them a completely new picture of the Bible and a sense of its wholeness such as they never had before.

It may be helpful to list the volumes of these Verbatim Reports and to indicate their contents:-

Volume I 36/- (The True and False Records of Creation) and Index	This volume on the true and false records of creation is like a guide book - a chart - whereby one is equipped to journey through the Bible.
Volume II 42/6 (Noah, Abraham, Isaac, Jacob, Joseph) and Index	The stories of Noah, Abraham, Jacob, and Joseph come right into daily living and one finds oneself constantly saying, "This is exactly my experience. I can see what to do now!"
Volume III 35/- (Moses) Index available at 7/6d.	With the story of Moses and the Exodus one senses a great turning-point, and it impels a new outlook in one's own spiritual progress - a more subjective view of reality begins to dawn. The books of Leviticus, Numbers, and Deuteronomy are transformed from mere records of ritual, into living realities, practical messages.
Volume IV 22/6 (Joshua, Judges, Ruth)	Joshua, Judges, and Ruth show the workings of individual spiritual sense. They present the fundamentals of spiritual self-government, encouraging and strengthening each one as an individual.
Volume V 20/- (I and II Samuel) Volume VI 30/- (I and II Kings)	The books of Samuel and Kings bring the whole subject of government into focus in a new light, and in a way that is of great importance to-day. They expose false government and lead thought to accept the government of divine Principle.
Volume VII 47/6 (Amos, Micah, Isaiah) Volume VIII 32/6 (Ezekiel) Volume IX 40/- (Dan., Ez., Neh., Hag., Zech., Mal.)	As the symbolism of these prophetic books is decoded, so their vital message appears in all its power. These books lay bare the workings of evil and state unequivocally the trenchant facts of scientific being. Here there can be no compromise. One Principle, by its very oneness, demands universal obedience.
Oxford Talks, 1948, 18/- ea. Vol.I (Hosea and Jer.) Vol.II (Matt. and Rev.) Oxford Talks, 1949, 30/- ea. Vol.I (Matt. and Mark) Vol.II (Luke and John)	Finally the Gospels and Revelation pour in the balm of the New Testament message. Here thought looks outward from conscious oneness with the Principle of the universe, and from this altitude flow healing and regeneration as the natural outcome. The real import of this message, though, is not really seen except in the light of the Old Testament story.

And so the conviction that the Bible is a magnificent whole is borne in on one as one reads these extraordinary Verbatim Reports.

One feels, above all, that the Verbatim Reports are not just metaphysical treatises, but the fruit of John Doorly's lifetime of

living with these spiritual realities and proving them in the hills and valleys of human experience. Through them one finds that the Book of Life lives as never before.

John Doorly, in a Talk on the Bible in London on October 26, 1948, said:-

> "I feel positive now that there is going to be a flood of light on this subject, and I think that it is going to come mainly through the written word....I can see the time coming, and I say it to you quite impersonally, when publications like these verbatim reports will reach every type and condition of thought. And so be sometimes wise enough and brave enough to show them to your friends.
>
> There are two things that are important - understanding the Christ-idea and giving it out. Getting it is good, but giving it is better. The getting is the creative sense: the giving is the conceptive sense. Your understanding of Science never has that which will establish it, that which will maintain it, that which will mother it, until you give it. So don't say that you can't give it, that people won't listen, because that's not true. The fact of the matter is that 'I, if I be lifted up from the earth, will draw all men unto me.'"

Lending Library, Angmering-on-Sea

Miss V. Firth has a small library of all John Doorly's Talks and books; and also of other Talks which have been published in book form. She would be glad to lend any of these books free of charge (postage excepted).

Talks at Brighton

Miss C. M. Trotman will continue weekly talks on the Bible during the coming winter at the Institute, Queen Square, Brighton (near Clock Tower), on Fridays from 2.45 to 4 p.m., beginning on October 7th, 1955.

The subject will be the further study of the journey of the children of Israel from Egypt to the Promised Land, mainly as given in the Books of Numbers, Deuteronomy, and Joshua.

Further particulars may be obtained from Miss C. M. Trotman, 4 Tivoli Crescent, Brighton 5. (Tel. 58093).

Weekly Talks on the Bible: Exodus

Weekly talks on the Book of Exodus will continue to be given by Mrs. Peggy Brook during the forthcoming months.

These talks are presenting the journey from sense to Soul as typified by the children of Israel coming out of Egyptian bondage, through the wilderness, into the Promised Land. Having considered how Mind intelligently presents its saving idea (Ex. 1:1 - 7:13), how Spirit separates its idea from the false gods of materiality (Ex. 7:14 - 12:51), and how Soul impels the journey forward through diverse temptations (Ex.13:1 - 18:27), these coming talks will take Moses' ascents and descents on Mt. Horeb as illustrating the firm and foundational teaching of divine Principle, which eventually leads thought into the Promised Land of Science.

These weekly meetings will take place every Tuesday evening from 6.45 p.m. - 8.45 p.m., commencing on Tuesday, October 11th, until Tuesday, December 13th. They will be given at St. Ermin's Hotel, Caxton Street, Westminster, London, S.W.1.

Although visitors are welcome on application to Mrs. Brook it may be well to emphasize that the greatest blessing from a series of talks is obtained by regular attendance.

Fee for attendance will be £2.10. 0 for the ten meetings, or 5/- each meeting.

Applications to attend should be made to Mrs. Brook at 41 Pelham Court, Fulham Road, London, S.W.3. Tel: KNIghtsbridge 105

Review of the "fundamentals" commencing January 1956

On the two consecutive weekends January 20th - 22nd and January 27th - 29th, 1956, Gordon and Estelle Brown will be starting a review of the "fundamentals" of the system of Christian Science. This will take place at their address as given below.

The intention during these weekends is to catch a glimpse of the system in its wholeness.

The times will be:	Fridays	6.45 - 8.45 p.m.
	Saturdays	2.30 - 4.30 p.m. and
		5.30 - 7.30 p.m.
	Sundays	11.00 - 1.00 and
		2.30 - 4.30 p.m.

Following the two weekends, on every Thursday evening, commencing February 2nd, a more detailed unfoldment of the fundamental structure from an initial sense of the Days of Creation to the culminating symbol of the Matrix will be developed. The Thursday evening times will be 6.45 - 8.45 p.m. and will continue through until approximately the end of May.

Summer Talks, 1956

Since the system of the "fundamentals" is the Key to the divine Science of the Scriptures, it is also intended to review the story of the Bible in its canonical order of unfoldment throughout the two Testaments, emphasizing that the Bible, as the first of the two textbooks of Life, presents "the divine Science of man...woven into one web of consistency without seam or rent" (S&H.242:25). These talks will take place from August 24th - September 2nd, 1956. The place and exact times will be announced later.

Those who would like to participate in either or both of the above are asked to contact Gordon and Estelle Brown, 36 Greville Hall, London, N.W.6, as soon as convenient.

Weekly Talks in London
(The Apocalypse)

Miss Irene Oppenheim will give a series of talks on "The Apocalypse," Chapter XVI from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, at the Caxton Hall, Caxton Street, Westminster, London, S.W.1.

Study of the Christian Science Textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy.

Alice Barnett announces the following:-

WEEK-END CLASSES, from 2.30 to 4.30 and 5.30 to 7.30 p.m. on

Saturday and Sunday, March 3rd and 4th, 1956

Saturday and Sunday, May 5th and 6th, 1956

at

St. Ermin's Hotel, Caxton Street, Westminster, London, S.W.1.

During the first week-end the chapter "Physiology" will be the basis of study, and during the second the chapter "Footsteps of Truth." Each week-end study will, however, be complete in itself, and will include a synopsis of the preceding and succeeding chapters, and show the position of the chapter under review in the composition of the textbook as a whole.

Tea may be obtained in the Hotel Lounge, if desired, during the interval.

SUMMER SCHOOL IN TORQUAY, S. DEVON, from July 1st to 6th, 1956, (Sunday to Friday inclusive), in the mornings only, at

Electric Hall, Castle Circus.

The study will be based on the two chapters, "Creation" and "Science of Being," and will be a complete presentation in itself.

The aim and object of the week-end classes and of the Summer School is to help the individual to establish for himself a definite method of study, whereby he may gain an ordered understanding of Mrs. Eddy's inspired textbook, and "at length know" himself "spiritually and scientifically." (S&H. 359: 14).

Those wishing to attend any or all of the above classes are invited to notify Mrs. Barnett, 155, Chiswick Village, London, W.4, from whom any further details may be obtained.

A copy of the "Torquay Guide," which contains a map of the district and lists of hotels, may be obtained from the Publicity Dept., Vaughan Parade, Torquay, price 6d.

A London Series of Week-end Talks on the Textbook - Max Kappeler

A circular letter has been sent out by Max Kappeler containing full particulars of a series of week-end Talks which he plans to give in London, beginning in September, 1956, and then at two-monthly intervals. This letter, giving a comprehensive picture of the motive, purpose, and nature of these Talks, has been sent to those who have read his book, "The Structure of the Christian Science Textbook - Our Way of Life."

As Dr. Kappeler is not in possession of the complete list of those who have his book some may not already have received the letter, and in such cases would those who are interested to receive a copy please write to Miss Judith Farman, 10, St. Edmund's Court, Regent's Park, London, N.W.8.

John Morgan's Publications

During Mr. John Morgan's absence in the United States from March until September, 1956, all his publications may be obtained from Miss Rachel Lee, 5 York Road, Edgbaston, Birmingham, 16, to whom all correspondence should also be addressed.

Space Fiction

In "The Observer" of Sunday, February 5th, a reader wrote:-

> "Our space-fiction writers seem determined to represent martians as lower than human beings...through the Press, radio, and television, our younger generation is subtly provoked into feelings of enmity and vague fear...As for the writers - if they must people their planetary phantasies, could we please have a superior type of being whose influence would enrich and ennoble the earth? This would at least give the children a hopeful outlook, and induce kinder feelings whatever is found when we eventually journey into space."

Our serial story "Explorers into Space," currently appearing in "Adventure in Ideas" aims at fulfilling this very demand. "Adventure in Ideas" contains besides this, in every issue, lively and helpful interpretations of Old Testament and of Gospel stories, a series bringing out the practical use of the synonymous terms for God, and a simple story for younger children. Many grown-ups as well as children find valuable the orderly and fresh sense of Science which "Adventure in Ideas" opens up for them.

"Adventure in Ideas," price 1/- per issue, comes out every other month. A specimen copy will gladly be despatched to anyone sending their name and address to The Foundational Book Co. Ltd.

WEEKLY TALKS IN LONDON
(The Apocalypse)

Miss Irene Oppenheim will resume weekly talks on "The Apocalypse," Chapter XVI, from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, on Thursday evenings at 6.30 p.m. from September 27th to December 13th, 1956, at the Caxton Hall, Caxton Street, Westminster, London, S.W.1.

Whilst closely following the text of the chapter, these talks also cover a wide range in the Bible. Many incidents and passages from the Scriptures are used to illustrate the unfolding of the divine system, which in "The Apocalypse" is presented from the standpoint of Science itself.

The fee for the series of twelve sessions will be £3.13. 6
Single attendances - 7/6d.

Applications to attend should be made to Miss Irene Oppenheim, 46 Shrewsbury House, Cheyne Walk, London, S.W.3. Tel: FLAxman 2687.

TAPE RECORDING OF SUMMER SCHOOL IN TORQUAY - JULY, 1956

Alice Barnett will play back the above recording (which covers approximately 18 hours) on consecutive Monday evenings until finished, commencing October 1st, at 7 o'clock at 166 Chiswick Village, London, W.4. The course of study covered in detail the two chapters, "Creation" and "Science of Being," within the structure of the Christian Science textbook as a whole.

Opportunities will be given for an informal discussion on any part of the recording.

Please notify Mrs. Barnett if you would like to attend.

TALKS BY PEGGY M. BROOK ON THE BIBLE

These Tuesday talks will be resumed commencing October 2nd, beginning with the Book of Deuteronomy.

Further particulars from Mrs. Peggy Brook, 41 Pelham Court, Fulham Road, London, S.W.3. Tel: KNIghtsbridge 1053.

A VERSE BY VERSE COMMENTARY ON THE GOSPEL OF JOHN

Miss Irene Oppenheim has made some recordings which are the outcome of Talks on the Gospel of John given by her in London during the years 1952-1955. They constitute a verse by verse commentary on the scientific aspect of John's Gospel. They were recorded in the desire to share the inspiration of that Gospel, viewed and interpreted from the aspect of Science, with a larger number than were able to attend the original talks.

These recordings have been made on the Grundig TK 12 "Reporter" Tape Recorder, and consist altogether of ten reels of recording tape. The total running time of the tape on each reel is approximately two hours.

Those who desire further information in regard to these recordings are invited to apply to Miss Irene Oppenheim, 46 Shrewsbury House, Cheyne Walk, London, S.W.3.

A POEM AND A PAMPHLET

We announce attractive reprints, in response to requests, of two items from IDEAS OF TO-DAY by Rosalie Maas. One is a poem, "Everyman's Self," now reprinted on a stiff card, $3\frac{1}{2}$" x $5\frac{1}{2}$", suitable for putting in a handbag or wallet. A very helpful poem which speaks simply and clearly of the sevenfold nature of each one of us as man in God's image. Price 1/- each, post free. (USA and Canada: 20 cents.)

The second reprint is of an article, "Happy Relationships Make for Health," now in handy pamphlet form. It has proved an outstanding help to many people, for it presents a practical spiritual basis for dealing with questions of relationship. Price 2/-, post free. (USA and Canada: 40 cents.)

NEWS ITEMS is issued every other month free of charge by The Foundational Book Co. Ltd., 84 Queensway, London, W.2, to whom the name and address of anyone wishing to receive this News sheet regularly should be sent.

Notices for inclusion in NEWS ITEMS should also be sent to The Foundational Book Co. Ltd. A charge of 20/- is made for each notice, with a maximum of 20 lines.

NEW UNIFORM EDITION OF JOHN W. DOORLY'S WORKS

A Reprinting Programme

The demand for John Doorly's writings has continued steadily throughout the years. In England the sales have always been maintained, and now from the U.S.A., Canada, Australia, Africa, and the Continent there is an ever-increasing and deep interest in John Doorly's work.

It is apparent that the Bible never ceases to hold its place in the hearts of men, and to-day in this scientific age the realization that there is a pure spiritual Science behind the Bible message is the truth that all men are hungering to receive. John Doorly's books are in the forefront in their contribution to this progressive revelation, and this is being more and more realized.

Because of this demand for his books The Foundational Book Company are now undertaking a great reprinting programme of all John Doorly's works. It was suggested to them that when this need should arise these books should be reprinted in a uniform edition of a standard type and size and published under the heading of "The Works of John W. Doorly."

At the beginning of this year, therefore, when the reprinting of several volumes became necessary, The Foundational Book Company began to put this suggestion into operation. They are reprinting each book as present stocks of it are sold out. In this way this new uniform edition will gradually be built up over the years.

Naturally a reprinting programme such as this is a costly proposition and The Foundational Book Company are deeply grateful to the many students who, through generous donations, are making these new publications possible.

Oxford Summer School Report, 1948

The Foundational Book Company are happy to announce that the first volume of his new uniform edition is now available. It is:

TALKS AT THE OXFORD SUMMER SCHOOL, 1948,
VOLUME II: Matthew and Revelation

253 pages Demy 8vo Price 30/- (post 9d.)

Here Mr. Doorly reveals the spiritual wealth and ordered design of the Books of Matthew and Revelation in a way that has inspired hundreds of students to appreciate these books as never before.

This Oxford Summer School Report constitutes the standard for all the other volumes. It is wellbound in maroon cloth with gold lettering. This book will appeal not only to new readers, but also to many people who already have a copy but will wish to start collecting the works of John W. Doorly in this uniform edition as each one is reprinted.

CHRISTIAN SCIENCE
RESEARCH LIBRARY

Further volumes in the Reprinting Programme

The reprint of Volume 2 of the weekly Talks on the Science of the Bible (Nos. 11-22) will be available in 2-3 months' time. This will be followed by Volume I of this same series (Nos. 1-10) and other Oxford Summer School Talks.

It may be several years before the later volumes of the weekly Bible Talks are reprinted as there are still considerable stocks of these in hand. New readers are therefore advised not to wait for the reprint but to purchase as required the volumes that are available at present.

ARTICLE BY MAX KAPPELER

A reprint of an outstanding article by Max Kappeler entitled A Recent Theory of Evolution and its Implications is announced. This originally appeared in the first issue of IDEAS OF TO-DAY in May 1951, when it aroused much interest. (This is the article referred to in the footnote on page 19 of Dr. Kappeler's "Why Study Christian Science as a Science?")

The author first summarizes the theory of evolution put forward by Lecomte du Noüy in his book "Human Destiny." He sets down the seven amazing fundamental facts which cannot be explained by natural science and yet form the backbone of evolution. Dr. Kappeler then shows clearly how du Noüy's work sustains in great measure the facts which the Bible and the Christian Science textbook present through the symbolism of the seven days of creation and the seven synonymous terms for God.

Send 2/6d. (50 cents) for this pamphlet.

BOOKS FOR CHRISTMAS

May we remind our readers that books are always a satisfying Christmas gift? The Foundational Book Company will be happy to send to your friends any book you may choose. If you wish to enclose a greeting card, please send it with your instructions.

LET THERE BE LIGHT

by Margaret J. Jewson — Demy 8vo, 144 pages — 8/6d. (post 9d.)

A book that leads the reader gently and simply into a logical, ordered interpretation of the Old Testament stories. The author brings these stories to life through showing how they represent fundamental thought-processes in anyone's spiritual development.

THE BIBLE FOR EVERYMAN

by Rosalie S. Maas — Demy 8vo, 112 pages — 5/- (post 7d.)

A lively and practical interpretation of the early Scriptural narratives from Adam to Moses. It presents the basic symbols given in the first chapter of Genesis as a key to the reading of the Bible.

A SCIENTIST OPENS HIS BIBLE

by Clifford and Daisy Stamp — Demy 8vo, 243 pages — 40/- (post, etc. 1/6d.)

Here the reader is invited to explore step by step the Creation record of seven "days" as a story of seven groups of ideas that are basic to real happiness. A book of great spiritual riches whose challenge to positive thinking is pervaded by love.

LISTEN FOR YOURSELF - A Study of St. Mark's Gospel

by David H. Baker — Crown 8vo, 72 pages, cloth binding 5/- stiff paper 3/6d.

The complete text of St. Mark in the Revised Version is here interspersed with brief comments and summaries, designed to challenge the reader to find for himself the underlying ideas in this Gospel.

WEEKLY TALKS ON THE BIBLE - Peggy M. Brook

These weekly talks on the Bible by Mrs. Peggy Brook will be resumed in May and June. They will start on Tuesday, May 7th. Continuing on through the Bible these talks will consider the BOOK OF JUDGES which illustrates the government of individual, spiritual inspiration. The keynote of Judges is "in those days there was no king in Israel, but every man did that which was right in his own eyes" (Judges 17:6).

Further particulars of these talks may be obtained from Mrs. Peggy M. Brook, 41 Pelham Court, Fulham Road, London, S.W.3. Tel: KNIghtsbridge 1053.

MR. J. L. SINTON'S MEETINGS IN JUNE 1957

Mr. Sinton is arranging to hold Meetings between June 19th and 21st inclusive for the further discussion of CHRISTIAN SCIENCE PRACTICE as presented in Chapter XII of the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy. The Meetings will also include a preparatory survey of Chapters XIII - XVI.

The Meetings will be held as before in the Council Chamber of the Baptist Union, 4 Southampton Row, London, W.C.1.

Further particulars from, and applications to, Mr. Sinton, at 7 Shrewsbury House, Cheyne Walk, London, S.W.3. FLAxman 2066.

SUMMER SCHOOL

John Morgan will be holding a Summer School this year in or near London, from the evening of Saturday, August 17th, until Saturday, August 24th. The subject will be:

MATTHEW'S GOSPEL as an illustration of the
TRUE and FALSE RECORDS OF CREATION.

The Gospel and two creation accounts will be taken in parallel, and the purpose of the School will be to see how, as the true record appears and the false disappears, we each follow the unfolding stages of consciousness marked out by Jesus.

Further details will be available shortly to anyone applying to Secretary, Summer School, 32, The Ropewalk, Nottingham.

THE WORKS OF JOHN W. DOORLY
New Edition of John W. Doorly's Weekly Bible Talks

VOLUME 2 - Noah, Abraham, Isaac, Jacob, Joseph

We are glad to announce that the reprint of Volume 2 of John W. Doorly's weekly Talks on the Science of the Bible will be ready in May.

This volume contains the stories of Noah, Abraham, Isaac, Jacob, and Joseph and is one that has always been very much in demand. The stories of these patriarchs are very attractive in their strength and simplicity, and when interpreted in the light of a practical spiritual Science which every man can understand and use, they become stories very rich in inspiration and come near to the heart.

This book is published in the maroon binding of the new uniform edition in which all John Doorly's works are to appear in due course. It is printed in the same clear type as the recently republished Oxford Summer School, 1948, Volume II. There is also an index of all the sub-headings at the beginning of the book.

Price: 50/- (postage 1/-)

Obtainable from:

WEEKLY TALKS IN LONDON by Miss Irene Oppenheim

Miss Irene Oppenheim will resume weekly talks on "The Apocalypse" (Chapter XVI in "Science and Health with Key to the Scriptures" by Mary Baker Eddy) on Thursday evenings at 6.30 p.m. from September 26th to December 12th, 1957, at the Caxton Hall, Caxton Street, Westminster, London, S.W.1.

Whilst closely following the text of the chapter, these talks also cover a wide range in the Bible. Many incidents and passages from the Scriptures are used to illustrate the unfolding of the divine system, which, in "The Apocalypse," is presented from the standpoint of Science itself.

Tape recordings of these talks are made each week. These are grouped into subjects which form individual talks constituted of reels from one to five in number. For instance:-

Spiritual Identity	1 reel
"The Twelve Tribes ... Scattered Abroad"	2 reels
The Story of the Shunammite Woman	2 "
The Crossing of Jordan	4 "
Spiritual Birth	4 "
Resolving the Problem of Evil	5 "

The above named and other recordings are now available. For further information please apply to Miss Irene Oppenheim, 46 Shrewsbury House, Cheyne Walk, London, S.W.3. Tel: FLAxman 2687

TALKS IN GUILDFORD, SURREY

A talk will be given by Mr. John Morgan at the Centenary Hall, Chapel Street, Guildford, on Sunday, September 29th, 1957, at 6.15 p.m. The subject of the talk will be "The Two Translations."

A further talk will be given by Mr. Morgan on Sunday, January 19th, 1958. The subject of his talk on that occasion will be "The Sixth Day."

WEEKLY TALKS ON THE BIBLE - Peggy M. Brook

Weekly talks on the Bible by Mrs. Peggy Brook will be resumed at St. Ermin's Hotel, Westminster, on Tuesday, October 1st until Tuesday, December 3rd. They will take place at 6.45 p.m. each Tuesday.

With the Books of Judges and Ruth, these talks will conclude the consideration of the first three thousand years of Bible history, the vital spiritual import of which many Bible students are beginning to realize.

"WHAT IS MAN?" by Alice Barnett

What is man? "God's spiritual idea, individual, perfect, eternal." (S. & H. 115:15)

As, in thought, the mortal yields, man comes into view, and is seen to be like God, having dominion.

This book - which is an elaboration of the Commentary on the two chapters, "Creation" and "Science of Being," in their setting within the Christian Science textbook, as given at the Torquay Summer School, 1956 - traces the appearing and presentation of the idea through the Bible and in the writings of Mary Baker Eddy.

The subject is developed in accordance with the pure Science of Christian Science, as given in the writings of John Doorly.

"FROM THE GARDEN OF EDEN TO THE PROMISED LAND"
by
Peggy M. Brook

This new booklet summarizes in a very fresh way the story of the first three days of creation, their counterfeit sense and the corresponding thousand-year periods of Bible history. In each case the great living, spiritual tone is presented from the first chapter of Genesis, the specific counterfeit sense that it annuls in the Adam record, and then each thousand-year period is taken as illustrating this great spiritual fact at work in our lives in a natural and irresistible way.

The spiritual certainty which results from pondering these living ordered stages of our way of Life is tremendous. This booklet will bring fresh inspiration, strength and comfort to any spiritual seeker who loves the ordered clarity yet warmth of the Bible's message.

JOHN W. DOORLY'S WORKS

IMPORTANT REPRINT

VOLUME I of JOHN W. DOORLY'S WEEKLY TALKS ON THE SCIENCE OF THE BIBLE is now reprinted.

As it is the first in the series of nine volumes of these weekly Talks, this book has always been much in demand. It has been out of print for several months, but now The Foundational Book Company are glad to state that it is again available.

It contains Talks Nos. 1-10: The True and False Records of Creation together with a Summary of these two records.

This volume forms the scientific basis of all subsequent Bible study, for it presents the great fundamentals of spiritual being as symbolized by the seven days of creation. It also uncovers the unreality of the counterfeit creation, symbolized by the Adam and Eve story.

Anyone who is seeking to understand the pattern of the Bible in its up-to-date message must needs begin by pondering its fundamentals in the opening chapters of Genesis. Many people have found this Volume I indispensable to such a study. They have also said that a deep reading of this volume has inspired and enriched them beyond measure, and left them with the most powerful and sure sense of the operation of spiritual values.

This Volume has been reprinted in the same clear type that has been used for all the books in the present reprinting of John Doorly's works. It is bound in the same maroon cloth.

Readers may like to be reminded that with the publication of this book, the following works of John Doorly are now available in the new edition:-

Talks on the Science of the Bible Vol. I (The True and False Records of Creation) 318 pages	45/- (postage 1/6) $9.00 (U.S.A. & Canada)
Talks on the Science of the Bible Vol. II (Noah, Abraham, Isaac, Jacob, Joseph) 394 pages	50/- (postage 1/6) $10.00 (U.S.A. & Canada)
Oxford Summer School, 1948 Vol. II (Matthew and Revelation) 253 pages	30/- (postage 1/-) $6.00 (U.S.A. & Canada)

All these publications may be obtained from:-

THE FOUNDATIONAL BOOKSTORE, 18 MORETON AVENUE, HARPENDEN, HERTS.

"FROM GENESIS TO REVELATION"

by

W. Gordon Brown

How apparent it is becoming that nothing less then the complementary relationships of SCIENCE & HEALTH and THE BIBLE, each understood in its consistency and wholeness, is capable of healing a divided world.

The above named book is the culmination of four years' prayerful pondering of the message of THE BIBLE as a whole. Every book is taken into account and its message viewed within the framework of the whole design.

As the book shows, to make such a survey as this is to follow step by step the ordered way in which the individual Jesus solved, from beginning to end, the stupendous Life-problem, and therefore the way the world must follow in order to do the same. Great light is thereby thrown on the divinely inspired intentions of Mary Baker Eddy regarding the world-wide church organization she founded.

Copies of this book may be obtained from:-
Gordon Brown, 36 Greville Hall, London, N.W.6. England.

BIBLE TALKS in LONDON - WEEK-END SERIES in JULY

A series of Bible talks in London will be given by Mrs. Peggy Brook from Friday, July 18th to Tuesday, July 22nd. They will be based on Mrs. Brook's recent booklet "From the Garden of Eden to the Promised Land."

These talks have been born of a deep conviction that there is great value in pondering the first three days of creation and the corresponding first three thousand years of Bible history in terms of every man's spiritual journey. When interpreted in this light the well-known stories of Adam, Noah, Abraham, Jacob, Joseph and Moses are seen to illustrate living spiritual facts which impel the way of Life for us all.

This series will be held at Agriculture House, Knightsbridge, London, S.W.1. and the times of the sessions will be as follows:-

Friday, July	18th	6.30 p.m. - 8.30 p.m.
Saturday "	19th	2.30 p.m. - 4.30 p.m.; 5.30 p.m. - 7.30 p.m.

WEEKLY TALKS ON I and II SAMUEL

Mrs. Peggy Brook will be continuing her weekly talks on the Bible, beginning on Tuesday, January 27th, until Tuesday, March 24th.

At these talks the fourth thousand years of Bible history is being considered, beginning with the stories of Samuel, Saul and David as related in the Books of Samuel. This kingdom period emphasizes the importance of prophecy as spiritual seeing. It shows how vital it is to let the spiritual understanding of divine Principle impel all thought and action and so to be a spiritual seer in every question of government, whether individual, collective or universal.

Eight talks on the Books of Samuel were held before Christmas, and this coming series will therefore begin at I Samuel, Chapter 18.

These weekly sessions are held at Agriculture House, Knightsbridge, S.W.1. Times:- 6.45 p.m. - 8.45 p.m. For further particulars apply to Mrs. Peggy M. Brook, 41 Pelham Court, Fulham Road, London, S.W.3. Tel: KNIghtsbridge 1053. Tape recordings of these and previous talks of Mrs. Brook are available on request.

"LIGHT ON THE GOSPEL OF JOHN"
Sir Aylmer Firebrace C.B.E.

This closely reasoned Commentary shows that the Fourth Gospel embodies that "spiritual Science" which was taught and demonstrated by Christ Jesus.

The Times Literary Supplement reported on this book:-
"Sir Aylmer Firebrace has subjected the Fourth Gospel to a minute analytical scrutiny, suggesting that in revealing much of its hidden meaning help is to be had from the teachings of Christian Science. He describes St. John's Gospel as 'the spiritually scientific gospel.'"

"CHRISTIAN SCIENCE PRACTICE"

John W. Doorly

This book has proved to be the most widely appreciated of John Doorly's writings, with an appeal to everyone who loves spiritual values and realizes their power to heal and save.

Based on the chapter, "Christian Science Practice" from Science and Health with Key to the Scriptures by Mary Baker Eddy, it shows the scientific platform on which spiritual healing is based. John Doorly also illustrates his statements with many cases of healing from the Gospels and from his own vast wealth of experience in the practice of Christian Science.

No reader can put this book down without feeling the comforting assurance that there is a spiritual answer to every human problem. Nor can he leave it without being awakened to the need of dealing with the one enemy, the carnal mind, in order to prove the supremacy of the spiritual over all the ills of the flesh.

This is a book that has revolutionized the conception of Christian Science practice and brought fresh spiritual strength to many.

This second edition is reprinted in the same clear type as the recent volumes of John Doorly's writings, now appearing under the title of "The Works of John W. Doorly." Bound in maroon cloth, this new book is slim and easy to handle.

"FROM GENESIS TO REVELATION" "CIVILIZATION LIETH FOURSQUARE"

These two books, published recently, have met a great need among spiritual thinkers. "From Genesis to Revelation" attempts something that has never yet been done in the field of Bible interpretation, namely, to show the divine Science of the Scriptures in its consistency and wholeness right through from the beginning to the end of the Bible, taking in every Book. This is a unique presentation - inspired, logical, and essentially practical.

Its companion book, "Civilization Lieth Foursquare" is a work of tremendous import. It re-iterates the same Science of Life that underlies the Bible unfoldment, showing how these basic spiritual values have impelled the story of the human race throughout the whole course of its civilization journey. This book rouses the reader to think vitally on a universal basis, and discusses such crucial issues as world communism, nuclear energy etc. in the light of a universal and spiritual perspective.

Copies of these books may be obtained from the author at 36, Greville Hall, London, N.W.6. or from The Foundational Bookstore, 18, Moreton Avenue, Harpenden, Herts.

Price: "From Genesis to Revelation" - 3 gns. (plus 2/6 postage)

"CHRISTIANITY: THE OUTCOME OF THE CHRIST VISION"

Irene Butterworth

This book gives one aspect of the great Christian story. It is written simply and should be acceptable to those whose convictions are deep and enduring as well as to those who honour Christianity, but are not sure where they stand in relation to its teaching.

Ernest Renan described Christianity as being "within a new-blown flower, which still bears the envelope of the bud from which it has escaped." On the basis of this analogy this book develops its theme.

Chapter I	"The Envelope of the Bud" describes the formation of that protective envelope.
Chapter II	"The Flowering of the Bud" tells of Jesus' demonstration of the Christ ideal.
Chapter III	"The Setting Fruit" relates the Apostles' and Disciples' efforts to make that ideal shine in use.

Leaving the Bible at this point, the remaining chapters tell of that great "cloud of witnesses," coming from many nations, whose fidelity to the Christ vision, through many vicissitudes, has kept alive the message of the Christ.

"THE BIBLE FOR EVERYMAN"

Rosalie Maas

Owing to many demands, this helpful book on the Bible is now in the course of being reprinted and will appear in the Spring.

"The Bible for Everyman" has proved itself to be a most valuable introduction to a practical interpretation of the Bible. It takes the Old Testament stories of the seven days of creation, of Adam, Noah, Abraham, Jacob, Joseph and Moses, and shows their value to men in their everyday life. And not only this. Other Scriptural examples of the spiritual law behind every story are given, showing the consistency and wholeness of the Bible message.

Many newcomers to Bible study have found this book has opened new doors to them as to how to read the Bible, and has started them off on a path of wonderful discovery. It has also shown them the essentially practical nature of many well-loved stories in the Scriptures, and the timeless, spiritual pattern which lies behind them.

Orders for this book may be placed with The Foundational Bookstore now. Please note that its new price will be 8/6 plus 1/6 postage.

TALKS ON "THE STRUCTURE OF THE CHRISTIAN SCIENCE TEXTBOOK - OUR WAY OF LIFE" by Max Kappeler

Students who have read Max Kappeler's book of this title, and who are familiar with the fundamentals of Christian Science are offered the opportunity to listen to the tape recordings of the Talks which Dr. Kappeler gave in London between September 1956 and November 1958.

Meetings will be held at Agriculture House, Knightsbridge, S.W.1. on every fourth Saturday, from 2.30 - 7.0 p.m., commencing on 2nd May, 1959.

Full particulars may be obtained from Miss Judith Farman, 10 St. Edmund's Court, Regent's Park, London, N.W.8. (Tel: PRImrose 1766)

WHITSUNTIDE MEETINGS - J. L. SINTON

Mr. Sinton is arranging a four-day meeting, to be held in The Council Chamber, Baptist Church House, 4 Southampton Row, London, W.C.1., from Tuesday, May 19th - 22nd inclusive, 10.0 a.m. - 4.30 p.m. each day.

The purpose of the meeting is to consider the design, structure, and operation of our textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, as a whole in order to gain a deeper spiritual understanding in relation to the individual need, and humanity's need in the midst of this twentieth century.

The scientific and technical developments of this past half-century outstrip all earlier periods in scientific advance. Are we as students of divine metaphysics abreast of the times, and are we bringing forth corresponding advances in the understanding and demonstration of the Science of Spirit? This question will be discussed at some length.

Attention will also be given to the question of scientific method, in order to help students develop their own work with the true self-reliance which derives from Principle.

Applications should be made to Mr. Sinton at 7 Shrewsbury House, Cheyne Walk, London, S.W.3. (Tel: FLAxman 2066)

TALK at GUILDFORD, SURREY

"CHRISTIANITY: THE OUTCOME OF THE CHRIST VISION"
Irene Butterworth

Ezekiel was given the "roll of a book." He was told to "eat it" - understand it - and "go speak unto the house of Israel." To Christians the Bible is indeed the "roll of a book," and "Christianity: the Outcome of the Christ Vision" tells of very many people who, in their own way, have eaten it - understood varying aspects of its message - and have spoken through their writings to their own generation and posterity. They needed great courage, as their difficulties were often immense, but their integrity and spiritual vision has been the silver lining to the darkness of tyranny and rigidity of thought which has striven to eliminate the vision of the Christ.

Extracts from letters from readers:-

"I found the book very stimulating and provocative of thought. I don't remember any other book which covers such a wide range, and it must have been extremely difficult to make it, as you have, into a real book, instead of (what it might easily have become in less skilled hands) a sort of potted history."
J.C.H. Retired Charterhouse Schoolmaster

"I have read your book with greatest interest and enjoyment. What a tremendous field you cover, and I do admire how you have made so vast a subject a coherent whole. It seems to me your type of reasoning lit with revelation is of the greatest importance to many people to-day."
Lady M. d'A. Lecturer in U.S.A. and England for the Winifred Cullis Foundation

"LIGHT ON THE GOSPEL OF JOHN"
Sir Aylmer Firebrace C.B.E.

This closely reasoned Commentary shows that the Fourth Gospel embodies that "spiritual Science" which was taught and demonstrated by Christ Jesus.

The Times Literary Supplement reported on this book:-
"Sir Aylmer Firebrace has subjected the Fourth Gospel to a minute analytical scrutiny, suggesting that in revealing much of its hidden meaning help is to be had from the teachings of Christian Science. He describes St. John's Gospel as 'the spiritually scientific gospel.'"

THE SPIRITUAL EVOLUTION OF THE CHRISTIAN SCIENCE MOVEMENT

by

W.Gordon Brown

This is the third in the author's current series of books, and its purpose is to examine in true spiritual perspective the present advent of the pure Science of Christian Science within the entire development that has been taking place since Mary Baker Eddy's discovery of Christian Science in 1866.

The book is in four parts: "Scriptural Foundations", "The Founder's Spiritual Footsteps", "Aftermath of the Founder's Mission", and "To-day". Its essence is the continuation of the theme which has impelled its two predecessors, FROM GENESIS TO REVELATION and CIVILIZATION LIETH FOURSQUARE, namely, the eventual spiritual translation of the entire human race.

THE SPIRITUAL EVOLUTION OF THE CHRISTIAN SCIENCE MOVEMENT has a vital message for every progressive Christian Scientist, offering the answer to collective organization on the one hand, and individual segregation on the other.

SUMMER SCHOOL FOR YOUNG PEOPLE

It is proposed to hold a Summer School for teenagers over the 1960 August Bank Holiday weekend (July 29th - August 1st), near London.

The aim of such a School would be to help young people to feel that spiritually scientific thinking is as normal as common sense. It would also consider the orthodox religious beliefs that one meets in school and translate them into the ideas of Science.

Those interested should write to John Morgan, Manor Cottage, Strethall, Saffron Walden, Essex. (Tel: Saffron Walden 3488).

PUBLIC LECTURES BY JOHN L. MORGAN

Mr John L. Morgan is planning to give a series of free public lectures at the Caxton Hall, London, S.W.1. during the months of October and November, 1960.

Mr Morgan has recently returned from a year's tour in Canada and the United States where he has given many public lectures and classes which have proved how well worth while such undertakings can be.

The subject of his series of lectures in London will be The Science of Christianity. Further particulars will be announced later.

To make these lectures known through the normal advertising channels will cost a considerable amount. It has been felt that although this is primarily John Morgan's individual activity it also concerns each one of us who values the pure Science of Christian Science and sees its universal nature. The suggestion has been put forward, therefore, that there may be many who would like to contribute towards the expenses of giving these lectures.

The idea of a fund for this purpose came into being through an individual student, and anyone who feels in their heart that they would like to contribute towards it is invited to send their donation to Mrs. Margaret Townsend (who will act as treasurer), 34 Brentwood Avenue, Finham Park, Nr. Coventry.

IRENE OPPENHEIM'S TAPE RECORDINGS AND PUBLICATIONS

Tape recordings of eighty-three talks on the subject of the divine system of Science, as illustrated in the Bible and Science and Health with Key to the Scriptures by Mary Baker Eddy, are available on loan. These talks were given in London during the years 1957-1959.

For full particulars please contact Miss Oppenheim at 46 Shrewsbury House, Cheyne Walk, London, S.W.3. (Tel: FLAxman 2687)

GOD'S NATURE AS LOVE

by
Peggy M. Brook

Love has been called "the greatest thing in the world." From a deep desire to know more of divine Love, the subject matter of this booklet eventually came into being - first as a Talk and now available in print.

Taking the 23rd Psalm as its background, together with references from the writings of Mary Baker Eddy, it aims to give a living sense of Love, developing the theme step by step in a clear and practical way.

WEEKLY TALKS ON THE FIRST BOOK OF KINGS

Mrs Peggy Brook will again be giving weekly talks on the Bible, starting on Tuesday, February 7th. There will be eight talks in this series, continuing until Tuesday, March 28th.

At these talks we shall consider the first Book of Kings which starts with the reign of Solomon. The story of Solomon's great wisdom and wealth and his building of the temple, furnish wonderful lessons to be heeded in the practice of true spiritual government. After the reign of Solomon, the kingdom of Israel divided. With many unsatisfactory rulers the children of Israel began to fall away from the one God and worship false gods. Into the midst of this backsliding came the prophet Elijah, whose mission concludes the I Kings and introduces the II Kings. He illustrates how spiritual vision is the saviour to every situation and that it is always a case of "Before they call I will answer."

These talks will be held at Agriculture House, Knightsbridge (near Hyde Park Corner), S.W.1 on Tuesdays from 6.45 pm – 8.45 pm. The fee for attendance is £3.16.0d. for the eight talks or 7/6d per talk. (Naturally this fee is adjustable where necessary.)

Applications should be made to Mrs Peggy Brook, 41 Pelham Court, Fulham Road, London, S.W.3. (Tel: KNIghtsbridge 1053)

JOHN L.MORGAN'S CLASSES

Mr Morgan will be holding a course of about fifteen weekly evening classes in London, beginning on Thursday, March 2nd, at Agriculture House, Knightsbridge (near Hyde Park Corner), S.W.1.

The course will be for those who have already begun to study Christian Science as a Science, and they will be expected to do some homework. The subject will be the fundamentals of the creation story illustrated by Matthew's Gospel, and the purpose of the class will be to show how Science is worked out in life-practice. There will be a fee of 5 gns for the course, but adjustment will gladly be made where needed.

Applications should be made before the end of February to the Secretary, Manor Cottage, Strethall, Saffron Walden, Essex. (Tel: Saffron Walden 3488)

IDEAS OF TO-DAY and ADVENTURE IN IDEAS

Please note that the January/February issues of Ideas of To-Day and Adventures in Ideas will be sent to subscribers as soon as they are ready.

COLLECTED WORKS OF JOHN W. DOORLY - NEW VOLUME

Volume IV of John W. Doorly's Weekly Talks on the Science of the Bible will be available in the new maroon edition early in February.

This volume is an interpretation of Joshua, Judges and Ruth, which describe the entry of the children of Israel into the Promised Land. In all his talks on the Bible, John Doorly shows how the facts of divine Science interpret these Scriptural stories so that we see them as presenting timeless and ever operative spiritual values. This particular volume presents the spiritual factors which will enable any man in any age to enter the "promised land" of spiritual dominion.

Readers may be glad to be reminded of the books of John W. Doorly that have already been reprinted and are now available in the new maroon edition:-

INDEXES TO JOHN W. DOORLY'S BOOKS

Since some of the Indexes which were compiled to certain of Mr Doorly's books no longer apply to the new maroon edition of these works, because of slightly different page numbering, it has been decided to offer these Indexes at 2/6d each. They will be found of great value to those who have the original editions of:-

Talks on The Science of the Bible - Vols. I, II, III and VIII

Christian Science Practice - First Edition

The Index to Oxford Summer School, 1949 Vols. I & II - Matthew, Mark, Luke and John, is also offered at 2/6d though it applies to both the original and the new maroon edition.

All these publications may be obtained from:-
THE FOUNDATIONAL BOOKSTORE, 18 MORETON AVENUE, HARPENDEN, HERTS. or their Agents overseas.

YOUNG PEOPLE'S SUMMER SCHOOL, 1961

John L. Morgan will be holding a Summer School for young people in 1961, on similar lines to that held in Harpenden last August. The proposed time is for one week from August 19th to 26th. Mr & Mrs Cecil Colson will again be making the arrangements and the choice of place will depend on the number of students attending. A school or Convention Centre will probably be hired for the purpose.

The subject of the School will be a study of the days of creation and the synonymous terms for God, and their practical application.

Will you please say whether you wish to make any reservation, firm or tentative, for places in this Summer School? These reservations should be made not later than January 31st, to the Secretary, Manor Cottage, Strethall, Saffron Walden, Essex, (Tel: Saffron Walden 3488); or to Mrs Colson 18 Moreton Avenue, Harpenden, Herts. (Tel: Harpenden 4717)

NEW LIGHT ON THE FUNDAMENTALS

"TAKE, EAT; THIS IS MY BODY"
A Study of the fundamentals of the system of scientific metaphysics denominated Christian Science

W. Gordon Brown

This book unfolds the fundamentals of Christian Science in a simple, natural way. It brings to light the fact that the step by step build-up of the system from the "days of creation" to the "matrix" is, in essence, correlative with the chapter by chapter development of the structure of Science and Health.

All key citations are printed in full. The book can therefore be read and pondered from cover to cover without the labour of looking up references. At the same time it invites the advancing student to explore for himself through his own researches some of the limitless spiritual potential of each step of the way.

This is a revision of the book first published by Gordon and Estelle Brown in 1952. Students working alone or in groups have found the original work to be of great value to them in gaining an ordered understanding of the system of Christian Science. It is hoped that the present revision will be of even greater service.

318 pages $2\frac{1}{2}$ gns ($8.00 U.S.A and Canada)

Obtainable from The Foundational Bookstore, 18 Moreton Avenue, Harpenden, Herts. or from the author at 9 Grange Lodge, The Grange, Wimbledon, London, S.W. 19.

A NEW BOOKLET BY J. LAWRENCE SINTON

A new booklet entitled A Broad Survey of Science and Health by J. Lawrence Sinton will be available in February. It constitutes a forerunner to a major work by Mr Sinton which he plans to publish at a later date.

This booklet presents the over-all matrix design and structure of the textbook as the textual representation and interpretation of the divine Comforter promised by Christ Jesus. In the light of this it explains why there are sixteen chapters of text and shows that each one of these is complete in itself, yet indispensable to the completeness of the textbook as a whole. It thus helps the student to advance beyond disconnected ideas to the consciousness of Truth as an indivisible whole, and to base his life and work on scientific method in acquiring and demonstrating both the letter and the spirit of Science.

This booklet will be available at the end of February, but orders may be placed now with The Foundational Bookstore, 18 Moreton Avenue, Harpenden, Herts. Price 5/- (post free)

LETTERS OF A SEEKER IN SEARCH OF ETERNAL TRUTH

This Study consists of 16 articles. Each four consecutive Leaflets are devoted to the following four precepts of Christ Jesus, based on the study of Science and Health with Key to the Scriptures by Mary Baker Eddy:-

1) "Repent ye, and believe the gospel"
2) "Thou shalt love the Lord thy God"
3) "Thou shalt love thy neighbour as thyself"
4) "Be ye therefore perfect even as your Father which is in heaven is perfect"

Liliane Luthi of Zurich, Switzerland will give five Talks on the Minor Prophets at Milton Hall, Deansgate, Manchester. The dates will be from Tuesday, October 10th to Saturday, October 14th inclusive.

These Talks will be on the first two groups of Minor Prophets, i.e., Hosea, Joel, Amos and Obadiah, Jonah, Micah.

Miss Luthi will also give four Talks in Harrogate from Tuesday, October 17th to Friday, October 20th inclusive. These Talks will consist of an Introduction to the Minor Prophets and will also include the first group of three, namely, Hosea, Joel, Amos.

The fee for these Talks will be £1.0.0d. (25/- for married couples.)

Applications to attend either of these Talks should be sent to:-
Mrs Beardsell, Plymstock, 2 Ross Avenue, Davenport, Stockport, Cheshire.

Miss Luthi plans to conclude this series of Talks in April of next year, the dates to be announced later.

THE FOUNDATIONAL BOOKSTORE - CHANGE OF ADDRESS AS FROM OCTOBER 31st, 1961

Will readers please note that The Foundational Bookstore is moving from 18 Moreton Avenue, Harpenden, to London, N.2. It will become a limited company, and all orders for books from October 31st should be addressed:-

THE FOUNDATIONAL BOOKSTORE LTD.
(Registered Office)
11, Bishops Court
The Bishops Avenue
London, N.2.

This is a mailing address only. Any telephone enquiries regarding the books should be made to Mr and Mrs Colson, the Directors of this Company, at TUDOR 7320.

A LOGICAL APPROACH TO GRAMMAR

A complete course in English Grammar, suitable for students or teachers, is offered in 10 fortnightly or monthly parts. The course includes much practice work, with answers if required.

One of the interesting features of the course is the presentation, for the first time, of the parts of speech in a definite order. This order became clear to the author as a result of his study of the days of creation in Genesis. It may also be of interest to state that this order is accepted by Bertrand Russell as logically correct.

Further details on application to Stanley Jamaiker, M.A., 18 Holne Chase, London, N.2.

FABER – "AT THE START OF THE DAY"

This is a reprint in convenient booklet form of a series of articles which appeared in "Ideas of To-Day" in 1957 and 1958 and were much appreciated by readers.

The author presents a simple, specific, and orderly way of pondering fundamental aspects of God's nature and their relation to everyday experience.

This is a booklet which will be enjoyed and valued not only by those who have never given much thought to an orderly approach to ideas of God, but also by those who have thought deeply about the subject and yet welcome a fresh light on it.

This booklet is available from The Foundational Bookstore Ltd., 11, Bishops Court, The Bishops Avenue, London, N. 2. Price 3/6 (postage 6d) (U.S.A. & Canada 60 cents).

TWO NEW PUBLICATIONS by MARGARET J. JEWSON

A Summary of the Books of the Bible from Two Standpoints

Would a bird's eye view of the complete Bible, giving a brief summary of each book in its relationship to the whole, appeal to you? And would you like to see it from two standpoints, – first as our way of life, leading up to God, and second as our way of life seen from the "throne of grace," looking out from God?

This 16 page pamphlet costs only 3/- (postage 6d) (U.S.A. & Canada 50 cents)

The Gospel Stories for Children
The Life of Jesus as an Everyday Guide for Children of all Ages

In these 130 stories of the life of Jesus, taken from the four gospels woven together, Jesus and his teachings are portrayed, not as an ideal beyond our reach, but as a series of practical examples applicable to all the details of life. This appeals to young and old alike, – to "children" of all ages.

(Published by P.R. Macmillan Ltd.)

314 pages Price 15/- (postage 1/3) (U.S.A. & Canada $3.00)

Also please note that NOTES ON THE SEVENFOLD NATURE OF GOD by Margaret J. Jewson (often referred to as "The Housewife's Choice") has been reprinted and is now available, price 3/- (postage 6d). (U.S.A. & Canada 50 cents.)

All three publications available from The Foundational Bookstore Ltd., 11 Bishops Court, The Bishops Avenue, London, N. 2.

ROSALIE MAAS – "THE ROOTS OF MENTAL HEALTH"

Through the generosity of a reader who wished that as many people as possible should benefit from the above article which appeared recently in "Ideas of Today", it has been reprinted in leaflet form. Its theme is that instead of thought being focused on any claim of mental disease it should turn towards the peace and perfection of the one infinite divine Mind, which gives every man the right to mental health.

This leaflet is available to anyone who applies for it at the special price of 6d per copy (10 cents in U.S.A. & Canada). Please send orders to IDEAS OF TODAY, 43 Falconwood Road, Addington, Croydon, Surrey, or to the overseas agents listed on the inside back cover of each issue.

Dr. MAX KAPPELER'S SUMMER SCHOOL IN LONDON, 1962

(Sunday, 29th July – Sunday, 5th August, inclusive)

Subject: THE EPISTLES – THE CHRISTIANITY MATRIX

Location: Agriculture House, Hyde Park Corner, S.W.1.

Many students have been working since last September on a course of Study-letters on The Epistles, in preparation for this Summer School.

As the subject has developed, and the students have felt the rich blessings which come from the Epistles when studied in the light of Christian Science, there have been many late applicants whom Dr. Kappeler feels it would not be right to exclude from the School.

He therefore wishes it to be generally known that students will be welcome at the Summer School, even though they may not have been able to do all the preliminary work. He feels that it is each one's individual responsibility to be prepared as far as he is able.

The fee for applicants who have not subscribed to the Study-letters will be £10.0.0., and this will include the cost of a copy of the printed report. The fee is subject to adjustment where need is felt.

Enquiries and applications should be sent to the Secretary:- Miss Judith Farman, 10 St.Edmund's Court, Regent's Park, London, N.W.8. (PRImrose 1766).

"GOD'S NATURE AS LIFE"

by

Peggy M.Brook

This new booklet is now available. It is the third in a series on the sevenfold nature of God.

Jesus defined the purpose of his mission when he declared, "I am come that they might have life, and that they might have it more abundantly." What is the nature of this life which is abundant? In this booklet its nature emerges as purely spiritual, the inspiration of all being. "Jesus, our greatest example of limitless life, was so aware of the divine substance and essence of all life, 'the same yesterday, and today, and for ever,' that he could draw on this constant flow of harmonious spiritual being to heal, restore, reform, regenerate, and resurrect."

Taking the Lord's Prayer as a dynamic statement of the great Fatherhood of God, the booklet develops this life-giving essence step by step, bringing out a big and rich sense of what life really is.

NEW VOLUME OF JOHN W. DOORLY'S WORKS

Another new volume in the maroon edition of John W. Doorly's works has now become available. This is:-

HOSEA AND JEREMIAH
(Oxford Summer School, 1948, Vol. I)
30/- (postage 1/6)
256 pages U.S.A. & Canada $6.00

John Doorly says of Hosea, "He is recognized as one of the most lovable of the prophets. He knew that Love would chasten and purify, but that Love would always be Love, that it would never change or forsake." This chastening of divine Love is wonderfully brought out in this work, elucidating clearly the spiritual and scientific facts which impel such a purifying process. Jeremiah develops this story and shows the dynamic operation of the Christ, coming to the flesh to analyze, uncover and annihilate evil, thus bringing salvation to man. Through spiritual interpretation the messages of these prophets spring to life and are seen as applicable to-day in dealing with the claims of evil as they were in the prophetic age.

* * *

The work on the reprinting of these volumes of John Doorly's books goes steadily on, and The Foundational Book Company is increasingly grateful for the donations so generously given which make this reprinting possible. Already seven books in this series have been republished. They are:-

Talks on the Science of the Bible	
Vol. I The True and False Records of Creation	45/- ($9.00)
Vol. II Noah, Abraham, Isaac, Jacob, Joseph	50/- ($10.00)
Vol. IV Joshua, Judges, Ruth	30/- ($6.00)
Talks at the Oxford Summer Schools	
1948 Vol. I Hosea and Jeremiah	30/- ($6.00)
Vol. II Matthew and Revelation	30/- ($6.00)
1949 Vol. I Matthew and Mark	30/- ($6.00)
Christian Science Practice	42/- ($8.00)

(postage on all volumes 1/6)

Obtainable from The Foundational Bookstore Ltd., 11 Bishops Court, The Bishops Avenue, London, N.2., or from Agents Overseas.

SECOND-HAND BOOKS ON CHRISTIAN SCIENCE

The Foundational Bookstore Ltd., is often asked if it can supply second-hand copies of the Prose Works of Mary Baker Eddy, Concordances to her writings and sometimes Science and Health with Key to the Scriptures. If any students have spare copies in good unmarked condition they will be gratefully accepted by The Foundational Bookstore Limited. These books will be used for re-sale or distributed as gifts where applicable. They should be sent direct to Mrs H. Colson, 4 The Bishops Avenue, London, N.2.

"THE BIBLE AND SCIENCE AND HEALTH THEIR SPIRITUAL AND SCIENTIFIC WEDLOCK"

by

W. Gordon Brown

Yielding up the personal sense of "I," humanity ascends the scale of Science to the divine Principle, Love as the "I" of all mankind. This is the central theme of the BIBLE and, as exemplified by Jesus, shows forth the qualities of divine manhood. With Principle, not person, as his "I," individual man looks out upon his universe from the standpoint of God's allness and translates it from matter to Mind. This is the fundamental teaching of SCIENCE AND HEALTH and brings into expression the qualities of divine womanhood.

The purpose of Gordon Brown's new book – the fifth in his present series – is to emphasize the fact that only when the manhood and woman-hood of God are reflected indivisibly in individual consciousness can the axe be laid at the root of evil and the life problem be solved.

Obtainable only from W. Gordon Brown, 9, Grange Lodge, Wimbledon, London, S.W.19. Price £2.12.6d ($8.00 USA & Canada) postage free.

IRENE OPPENHEIM
PUBLICATIONS, RECORDINGS, and STUDY GROUPS

Miss Irene Oppenheim would remind readers of her various publications,

The Science of the Scriptures, Vols. I and II
The Epistles of John
The Deep Things of God
The Gospel of John – Its Scientific Aspect

and of the fact that Tape Recordings of Talks on the subject of the divine system of Science, as illustrated in the Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy, are available on loan. A list of these recordings will be sent on application.

Miss Oppenheim would also take this opportunity of informing readers that she holds two study groups weekly (Tuesday afternoon and Thursday evening.) She will gladly give information about these meetings and consider applications to attend from those who feel they might benefit from this work.

Enquiries and applications to:- Miss Irene Oppenheim, 46 Shrewsbury House, Cheyne Walk, London, S.W.3.

SUMMER SCHOOL IN HARROGATE

Miss Liliane Luthi from Zurich is holding a Summer School in Harrogate from Sunday, July 21st to Saturday, July 27th, 1963. The subject will be: THE STRUCTURE OF CHRISTIAN SCIENCE AND ITS DEVELOPMENT THROUGH THE AGES.

These Talks are for newcomers and beginners, but their purpose is also to show advanced students a way of introducing beginners to Christian Science, and this subject will be given during the morning sessions.

For the afternoon sessions two groups will be formed, considering with the beginners the practical aspect of the structure of Christian Science, while with the advanced students there will be discussions on Christian Science practice. The subject of practice will also include the present problems of Science, Theology, and Medicine.

The fee is six guineas per person and ten guineas for couples. No charge will be made for University students. The fee will also be reduced if necessary.

All enquiries and applications should be made to the Secretary: Mrs L. Beardsell, Plymstock, 2 Ross Avenue, Davenport, Stockport, Cheshire. A list of hotels in Harrogate will be sent on request. Reels of these talks will be available in September 1963.

WHAT IS SPIRITUAL?

A Contribution to the study of Christian Science

by

Gertrud Voigt

Students of Christian Science will probably agree that the answer to this question may be found in the Bible and the works of Mary Baker Eddy. In an attempt to show how and where to seek this answer Mrs Voigt throws a new light on the nature of the divine infinite calculus and the three degrees of the Scientific Translation of Mortal Mind on pages 115-116 of the Christian Science textbook.

Since this work is intended to be only a guide in studying the subject of Christian Science, it consists mainly of quotations from the Bible and the works of Mrs Eddy.

Mrs Voigt writes in her Introduction "My claim to treat this subject is based on earnest study and work over many years, the outcome of which is these papers. At first it was by no means my intention to make these notes known to others, but when I had finished them I realized that they were made in order to help others to get a better understanding of what Mrs Eddy calls 'the divine infinite calculus' of reality."

SCIENCE OF CHRISTIANITY
The Education of the Future
by
Ethel Schroeder

This pamphlet presents an interesting and convincing rationale which leads to the acceptance of a Science of Christianity, and outlines why and how this Science can and should be understood.

It offers thought-provoking substance for the individual seeking philosophical and metaphysical enlightenment in a world of complicated problems. It brings fresh inspiration to those who are students of metaphysics and Christian Science.

CHRISTIANITY: THE OUTCOME OF THE CHRIST VISION
by
Irene Butterworth

This book, published in 1958, is particularly pertinent at this time with the ever increasing interest in Christianity and its principles. In connection with its subject matter the author writes:

"Christianity in its different aspects has been symbolized by the bud (Word), the flower (Christ), and the fruit (Christianity). Just as the lemon tree has the ability to produce bud, flower and fruit simultaneously, so Christianity has the power within itself to effect simultaneous manifestations of growth.

These verses express the author's viewpoint:-

'The bitter fruit, – the fragrant flower sweet
In lakeside gardens on one tree abide.
Life teaches surely how 'tis wise to meet
The bitter fruit, – the fragrant flower sweet.
O freely use afresh, without entreat,
All Love's beneficence; so side by side,
The bitter fruit, – the fragrant flower sweet
In lakeside gardens on one tree abide.'

Mrs Eddy has described Christianity as 'the chain of scientific being.' This book shows that the links in that chain have been forged by men and women who have been willing to learn from Life itself, and to trust Love's unending beneficence."

WEEKLY CLASSES IN LONDON

John L. Morgan will be holding two weekly classes on the fundamentals of Christian Science in London during the winter, beginning mid-October. There will also be opportunity for coaching in individual study.

(1) A class for those who are new to the scientific study of Christian Science.

(2) A class with questions and discussion for those who have already done the basic study, but who want to know more of how to relate it to life and practice. The text for the class will be the Sermon on the Mount, and the emphasis will be on when and how we use the different orders.

The aim of both these classes is to help people to get a basic grasp of Science so that it lives with them, not as a subject, but as life.

For application and details of either of these classes please write to: Mrs Morgan, Frondirion, Elmdon, Saffron Walden, Essex, before September 30th, 1963.

WEEKLY TALKS ON THE BIBLE

Mrs Peggy M. Brook will be resuming her weekly Talks on the Bible in London. They will start on Tuesday evening, October 22nd, and will be held every Tuesday up to and including Tuesday, December 10th.

The aim of these Talks has been to interpret the Scriptures, showing always the spiritual impulsion behind their symbols and how that same spiritual impulsion is in operation in our lives to-day.

In the last series the two Books of Kings were considered as illustrating through the two kingdoms of Judah and Israel how divine Principle impels the unity of manhood and womanhood as understanding and demonstration, the letter and the spirit, in order to experience the balanced, permanent sense of God's government here and now. The Israelites were not obedient to Principle and so their two kingdoms were taken into captivity.

In this series we shall consider the message of the prophets which enabled the Israelites to come out of captivity and rebuild their temple. To rebuild the temple or true body is surely what all men seek to do and it is the eternal truths which lie behind the prophets' message which enable us to experience this true sense of body to-day.

For further particulars of these Talks please write to:-

CHRISTIAN SCIENCE
RESEARCH LIBRARY

"GOD'S NATURE AS PRINCIPLE"

by

Peggy M. Brook

The purpose of this series is to share a living sense of God's nature as Mind, Spirit, Soul, Principle, Life, Truth, Love.

The three previous booklets on Love, Truth, and Life brought also a touch of Christianity, the Christ, and the Word – all terms and divine processes that can be found directly in the Bible. Principle introduces a synonymous term which Mary Baker Eddy first assigned to the supreme power when she discovered the Science of Christianity. Therefore the nature of God as Principle naturally emphasizes the sense of Science and system, aspects not directly stated in the Scriptures and yet the one Principle and its exact, scientific operation lies behind the Bible truths from cover to cover, for the Bible was the only source from which sprang the discovery of Christian Science.

The certain and supreme nature of divine Principle is here discussed in its unfailing operation as spiritual law, order, rule, system, method, form, plan and design, taking the 46th Psalm as an illustration of this all-powerful Principle.
